Driveway Instruction Sheet

- ☐ 1. **Flag site, complete application and return to the Henry County Road Department.**

APPLICATIONS WILL NOT BE PROCESSED IF: Site is not flagged, box has not been checked on application and if the application has not been witnessed.

- ☐ 2. **Henry County will approve site and contact you with pipe size within 7 business days.**

Size _____ in. _____ ft. long

- ☐ 3. **Get pricing, check availability & choose an approved contractor for install from list below.**

Henry County has not given contractors specific guidelines for installation to help accommodate your budget and needs. However, we highly recommend that driveways are at least covered with rock. Please be specific with your contractor about the work you would like done and verify the contractor's warranty/guarantee for work completed. Henry County did verify all contractor's general and/or builder's license and proof of liability insurance when added to the approved list, but is not responsible for their work.

***Citizens may request another contractor, but they must apply, meet the County requirements and be approved by the County**

The pipe shall be a minimum length of 30' for metal pipe and 32' for concrete pipe. Pipes will be a maximum length of 60' for metal pipe and 64' for concrete pipe, unless approved by the County Engineer. Pipe material shall be Aluminized Corrugated Metal (15" - 30" diameter, 16 gauge; 36" - 48" diameter, 14 gauge; 54" - 72", 12 gauge, 84" and above, 10 gauge), or reinforced concrete.

Applicant is to fill out this application and return by mail to above address or email to workorders@henrycountyal.net. Prior to returning the application, the applicant must mark the location of the center of the proposed access point with flagging ribbon or other identification markers. Henry County Road Department personnel will inspect the requested location for feasibility and determine the proper diameter of pipe. After the initial inspection, the applicant will be contacted with the proper diameter of pipe and a permit will be issued. When work is completed, the applicant will contact the Henry County Road Department for a post-installation inspection. The applicant will be informed if any deficiencies in the installation exist and required to correct said deficiencies. Any pipe installed incorrectly or without a proper permit is subject to removal. The two-year applicant maintenance period begins upon completion of the post-installation inspection.

I, the undersigned, will comply with all conditions, restrictions and regulations of the driveway pipe policy of the Henry County Commission. I hereby assume all liability and hold harmless Henry County from any and all claims for damage arising from the driveway installation to be done herein.
